Principal Investigator

**مستشفى توام
TAWAM HOSPITAL**
Trial Site

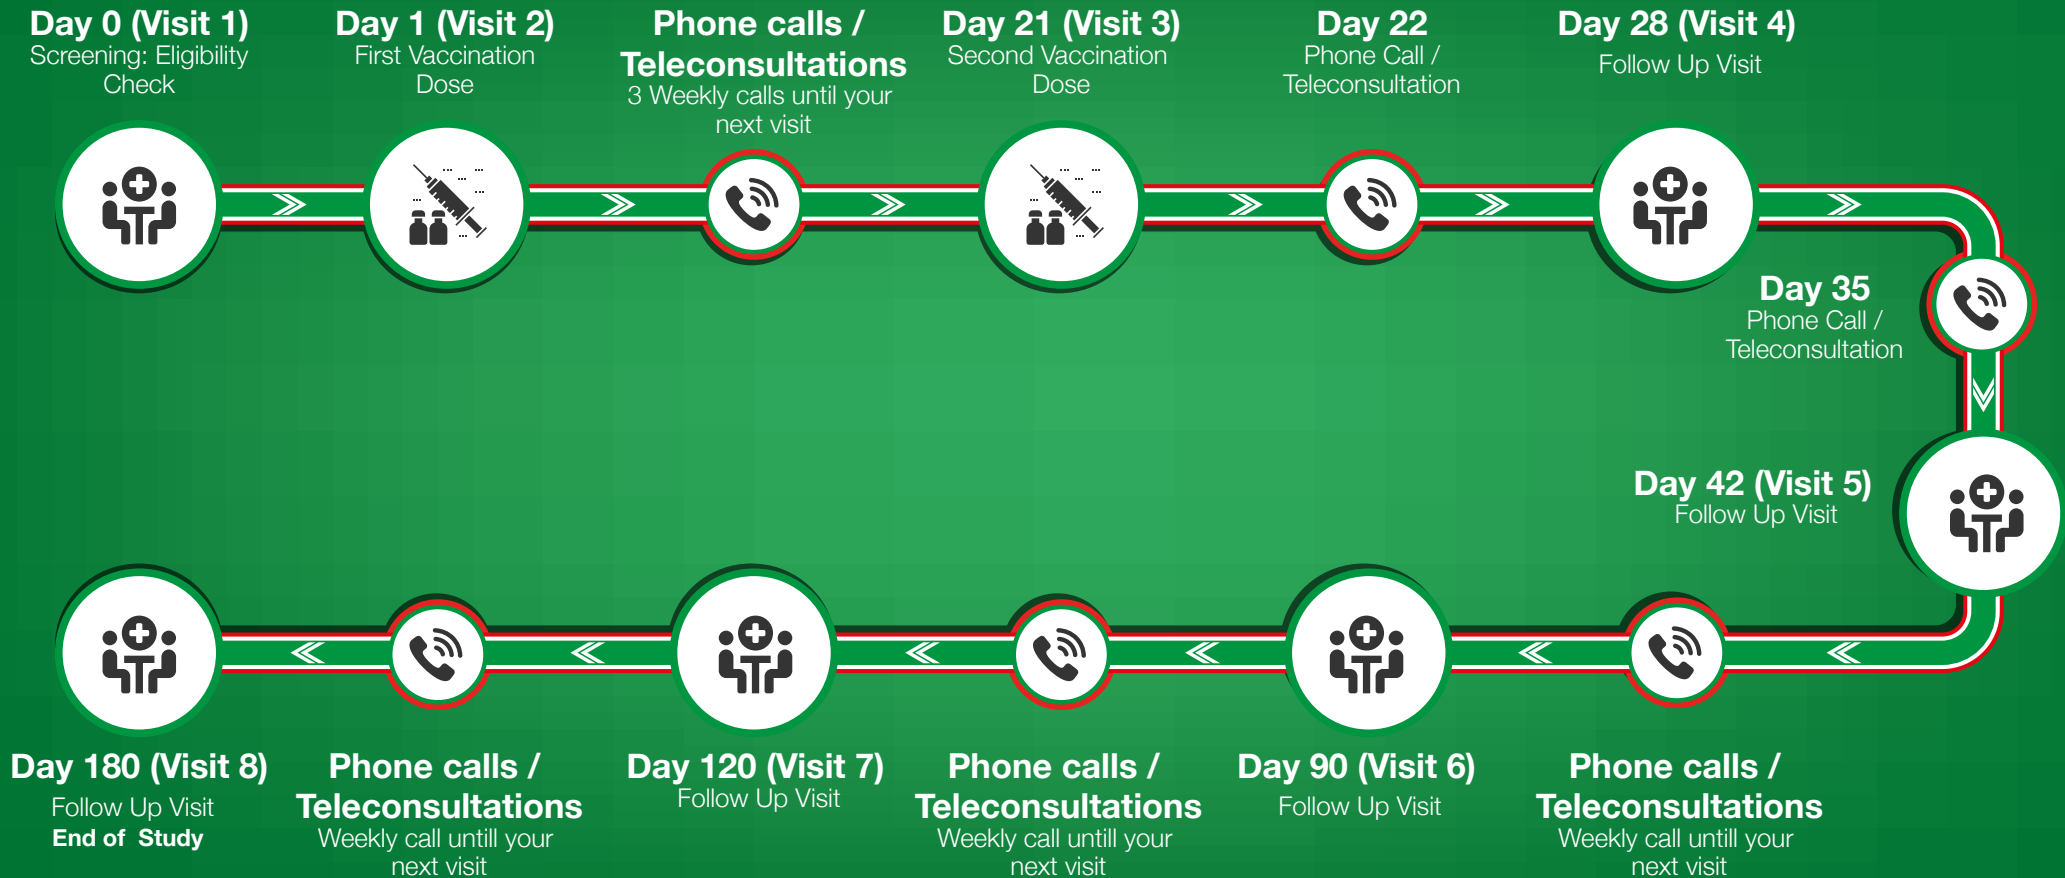

This is your chance to make history by being a part of the groundbreaking "Vaccine for Victory (V4V)" campaign, the UAE's chapter of the global vaccination trial of the Sputnik V vaccine, developed by Gamaleya National Research Institute of Epidemiology & Microbiology, in partnership with the Russian Direct Investment Fund (RDIF).

Sputnik V, the **Human Adenovirus vector-based vaccine**, was registered by the **Russian Ministry of Health on August 11th, 2020** and became the first registered COVID-19 vaccine out of 165 vaccines being developed across the world.

With your valuable contribution, as well as the expertise of healthcare professionals from Gamaleya National Research Institute of Epidemiology & Microbiology, the **UAE's Ministry of Health and Prevention**, and the **Abu Dhabi Department of Health**, we will endeavor to embark on a life-saving journey to help bring an end to the coronavirus pandemic.

CLINICAL STUDY TIMELINE
